

## ROW ASSET MANAGEMENT

ROW Asset Management (ROWAM) is a quantitative asset management firm formed in July 2010 by Ryan O'Grady and Jeff Weiser. The firm's objective is to seek to exploit investment opportunities in global markets using a proprietary, diversified trading strategy. ROWAM currently employs eight professionals.

## ROW DIVERSIFIED PROGRAM

The investment objective of the ROW Diversified Program is to seek to generate consistent long-term appreciation through active leveraged investing in global futures, forwards, and options markets. We utilize a quantitative approach to forecasting, portfolio construction, and risk management. The Program invests in currency, interest rate, energy, agriculture, and equity index instruments. We achieve style diversification by using a combination of Carry, Trend, Fair Value, Pattern Recognition, Volatility, Sentiment, and Mean Reversion models.

## MANAGER'S COMMENTARY\* – August 2014

The ROW Diversified Program returned +2.71% in August, after fees and expenses. Our best day was +0.80%, while our worst day was -1.01%. The portfolio's daily realized volatility during August was 8.37% annualized.

August 2014 was a strong month for trend-following strategies – the big trends we caught in August were long Bunds and Bobl, short Soybean Oil, and long USD. We also caught some of the downtrend in energy prices, but only after initial losses on the long positions established in previous months. We took a hit on FX Carry positions early in the month on renewed tensions in the Ukraine, but recovered some of the losses later in the month. Our Commodity Carry book took a small loss on its long position in Live Cattle.

Going forward, we have reduced our exposure to short Agriculture, and increased our exposure to short Energy. We continue to hold long positions in the Bund and Bobl, and our systems are jointly expressing a pro-Carry and pro-USD view in our FX book.

## **IMPORTANT DISCLOSURES**

This information is being provided to you on a confidential basis for illustrative purposes only. By receiving this document you acknowledge and agree that (i) you will not disclose or distribute this information, in whole or in part, to any third-party without the prior written approval of Row Asset Management, LLC (the “Investment Manager”) and (ii) that such information is being provided to you for informational purposes only as a current or potential investor qualified to invest in hedge funds or other alternative investments. If you do not agree with the foregoing, please notify the sender immediately.

This document is not an offer or solicitation for the purchase or sale of any securities or financial instruments. Offers and sales will be made only pursuant to a Confidential Private Placement Memorandum which describes the risks related to an investment in the funds managed by the Investment Manager and other documentation regarding the relevant fund, all of which qualifies the information contained herein. Securities or financial instruments mentioned herein may not be suitable for all investors. The funds managed by the Investment Manager may employ leverage, which could add to the volatility of investment performance or increase loss. The products managed by the Investment Manager are designed only for certain sophisticated investors who are able to bear the economic risk of losing all of their investment. Investment in any product managed by the Investment Manager involves significant risks and is suitable only for certain qualified persons who can bear the economic risk of the total loss of their investment.

Past performance is not indicative of future results. The performance and other figures contained in this document are unaudited for 2013. All performance is net of estimated fees and expenses and reflects the reinvestment of all estimated investment income.

The ROW Diversified Program as presented include the returns from (i) the ROW Diversified Fund from July 2012 to present as well as (ii) a separate account running the same program. The separate account includes the amalgamated returns of a separately managed account and a portion of a separate fund. The separate account had a substantially similar investment strategy to that of the ROW Diversified Fund. The net performance shown from November 2011-June 2012 assumes a hypothetical management fee of 2% and an performance allocation fee of 20%. Such performance was calculated from an independently calculated performance report (unaudited) provided by NAV Consulting. Performance from July 2012 to present represents the actual net performance of the ROW Diversified Fund, LP assuming a hypothetical management fee of 2% and an investment allocation fee of 20%.

The returns of several market indices are provided for comparison purposes only; The Barclays BTOP 50 Index and iSTOXX Efficient Capital Managed Futures 20 Index are comprised of various trading advisor programs in the managed futures industry (such indices the “Investable Managed Futures Indices”). In addition, the returns of several other market indices are shown to demonstrate the lack of correlation between such indices and the ROW Funds. All market indices shown may differ substantially from the ROW funds for numerous reasons including but not limited to, materially different holdings, volatility and investment objective. The returns of the ROW funds differ from these various indices in that, among other reasons, the funds are actively managed and may use leverage. With the exception of the Investable Managed Futures Indices, investments cannot be made directly in indices and such indices may re-invest dividends and income.

Actual performance of any individual’s investment may vary from the performance figures contained herein due to many factors, including, but not limited to, the timing of investment or withdrawal.
